

# PIN (ACTUALLY BUTTON) TRADING

At CDC this year, the State Officers had the idea to mimic the ICDC exchanging of pins with other students from other schools. But instead of pins, they will exchange 1.25" buttons. At CDC, all registered participants will receive **5 buttons** to exchange with students from other schools. This will be great for networking and meeting other students from across the state. The State Officers will create the buttons using the design your school creates (so get creative)! Send either your school logo or a 1.25" design by December 15 so that our team can get started preparing *The Great Button Exchange*. You may use the included [template](#) or simply send us a .jpg or .png of the button artwork. Please submit your design or logo to this [form](#) ASAP!
